

Quarterly Update FY 2016-2017

A word from the Management Team

“Fusion is my first industrial job and people of this company gave me warm welcome. The most beautiful thing of this company is that the people have got the freedom of speech, everybody gets a chance to give his / her valuable suggestions / thoughts. I am with Fusion almost since inception and journey so far is excellent. In my professional career of around 12 years, I have seen many fortune 500 companies, out of them Fusion is one of the company which always talks about strengthening Corporate governance, strong internal controls & processes, IT, Portfolio Quality, Employee Satisfaction etc. Most important thing which I have not seen in my career so far is that the Promoter of this company puts as much efforts as an employee. This really boosts the motivation of others to work more and hard. I am sure Fusion is going to be a big player in the financial sector”.

Employee Speak

“I have evolved professionally and personally a lot in my 6 years of association with Fusion. My organization has a very big role to play in my growth - when I say organization it goes without saying that it is its people who make the organization. I would like to personally thank my Seniors who have given me immense support and direction in my professional journey”.

Client Speak

Life has been difficult when our household income was abysmal which was just enough to manage daily food for a family of four and a dilapidated roof over us. Providing a good future to our children was a dream which we thought would never come true. One day, I came to know about Fusion Microfinance that they provide financial services to women like me. I took my first loan from them and bought a sewing machine to start a tailoring business. The business started paying good and helped us address our basic necessities. I have taken loan from Fusion for the second cycle as well which has made immense changes in our lives. My business has grown bigger and we are happy for the fact that our children are getting better education and lifestyle.
